The amendment received 9/26/05 has been entered and claims 14-35 are currently pending in this application.

Newly amended claims 14-33 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

The original claims were directed to a kit and now the claims have been amended to be directed to a reagent set. Although such is indefinite as to what may be intended, it is interpreted to mean a reagent composition which is distinct from a kit.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 14-33 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Method claims 34 and 35 depend from withdrawn claims and therefor cannot be further considered on the merits.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
